Speech delivery and contrastive acoustic evidence

## reagan_challenger_1986-opening-rushed-severe.wav

Analysis: 4dd64ab0-1375-48fb-b969-58e7a896037c | 2026-10-14T17:13:30 UTC
Provider: evaluator / 3.1.3-local.1 | REAL
Rubric: Complete delivery with clarity / version 1

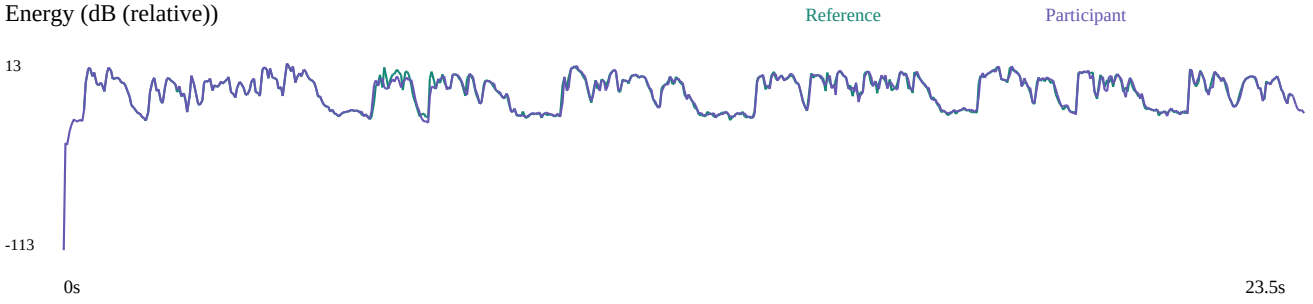
## Overall delivery score: 98.8 / 100

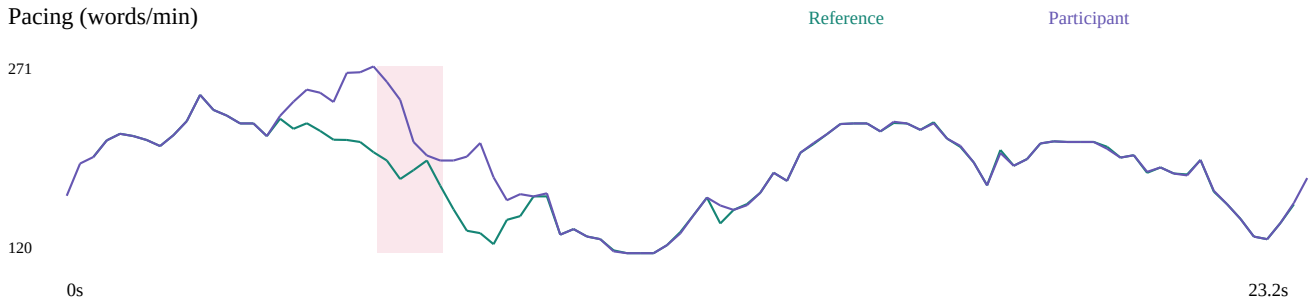
| Dimension | Score / 100 |
|---|---|
| Pacing | 95.3 |
| Pausing | 100.0 |
| Pitch | 100.0 |
| Energy | 100.0 |
| Clarity | 100.0 |

## Clarity evidence

Clarity is reference-relative ASR word recoverability. It is not a calibrated human intelligibility or accent score; recording conditions and model bias can affect it.

Reference word errors: 23.0%. Participant word errors: 16.2%. Additional errors: 0.0 percentage points. Score = 100 x (1 - additional error rate), bounded to 0-100.
Independently recognized participant words: Ladies and gentlemen, I'd plan to speak to you tonight to report on the State of the Union. That's really a day for me to change those plans. Today is a day for mourning and remembering. Nancy and I are paying to the core, but the tragedy of the Shuttle Challenger. We know we share this pain with all the people of our country. This is truly a national loss.





## Flagged delivery regions (1)

### *1. Rushed pacing | 5.83-7.05s | severity 4/5*

Matched articulation rate is 599.4 words/min versus reference 368.9 words/min, a +62.5% difference. Long pauses are evaluated separately.

Practice: Leave room for emphasis and slow this phrase.

Passage: but the events of earlier today have led
phrase_articulation_rate: reference 368.9, participant 599.4, difference 230.5 words/min. Evidence: measured.

## Measurement notes

Detection confidence is heuristic, not a calibrated probability.
Clarity is reference-relative ASR recoverability, not a calibrated human intelligibility or accent score. Recognition errors may reflect recording conditions or model bias.
Scores use evaluator.py's heuristic deductions and the selected website rubric. Pacing and pausing are scored separately. Clarity measures additional ASR word errors relative to the reference.
