Speech delivery and contrastive acoustic evidence

1272-128104-0000.wav

Analysis: cdf1f0d6-a574-462a-b59c-ad242bb6c7e7 | 2026-10-14T17:35:04 UTC
Provider: evaluator / 3.1.3-local.1 | REAL
Rubric: Complete delivery with clarity / version 1

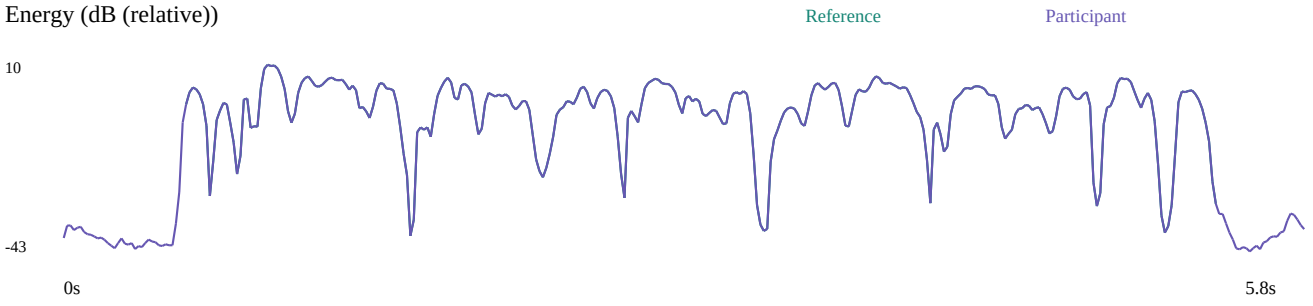
Overall delivery score: 100.0 / 100

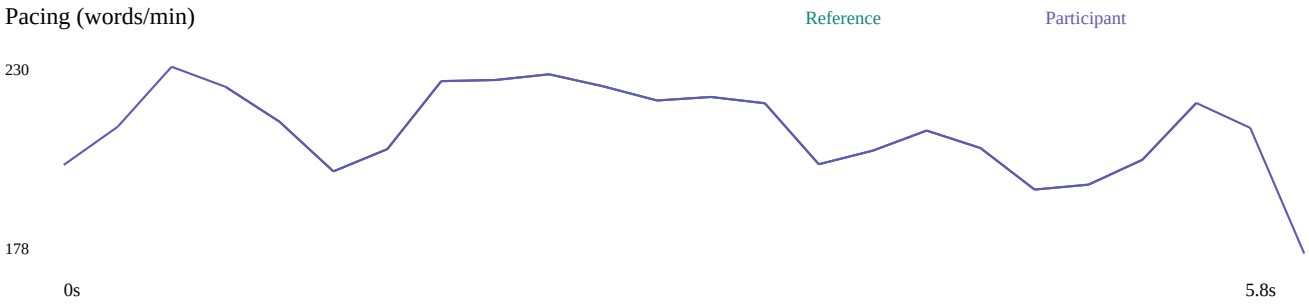
Dimension	Score / 100
Pacing	100.0
Pausing	100.0
Pitch	100.0
Energy	100.0
Clarity	100.0

Clarity evidence

Clarity is reference-relative ASR word recoverability. It is not a calibrated human intelligibility or accent score; recording conditions and model bias can affect it.

Reference word errors: 5.9%. Participant word errors: 5.9%. Additional errors: 0.0 percentage points. Score = 100 x (1 - additional error rate), bounded to 0-100.
Independently recognized participant words: Mr. Quilter is the apostle of the middle classes, and we are glad to welcome his gospel.





Flagged delivery regions (0)

No supported delivery deviations crossed the configured thresholds. This is not a guarantee of flawless delivery.

Measurement notes

Detection confidence is heuristic, not a calibrated probability.
Clarity is reference-relative ASR recoverability, not a calibrated human intelligibility or accent score. Recognition errors may reflect recording conditions or model bias.
Scores use evaluator.py's heuristic deductions and the selected website rubric. Pacing and pausing are scored separately. Clarity measures additional ASR word errors relative to the reference.
